

**Proposals by the Board of Directors to be presented at the
Annual General Meeting ("AGM") of shareholders
of Husqvarna AB (publ) on Tuesday, April 4, 2017**

The below proposals correspond with the numbering set forth in the agenda proposed by the Board of Directors, as set forth in the separate Notice of Annual General Meeting.

Proposed distribution of earnings (item 8 b)

The Board of Directors proposes a dividend for financial year 2016 of SEK 1.95 per share, to be paid in two installments, firstly SEK 0.65 per share with Thursday, April 6, 2017 as the first record day, secondly SEK 1.30 per share with Friday, October 6, 2017 as the second record day. Assuming the AGM resolves in accordance with the Board of Directors' proposal, the estimated (i) last day for trading in Husqvarna shares with right to the applicable part of the dividend payment (ii) record day, and (iii) estimated date for payment from Euroclear Sweden AB for each of the installments are as follows:

	First Installment (SEK 0.65 per share)	Second Installment (SEK 1.30 per share)
Last day for trading	April 4, 2017 (Tuesday)	October 4, 2017 (Wednesday)
Record Day	April 6, 2017 (Thursday)	October 6, 2017 (Friday)
Estimated Payment Date	April 11, 2017 (Tuesday)	October 11, 2017 (Wednesday)

Resolution on principles for remuneration for Group Management (item 12)

For the President & CEO (hereinafter "CEO") and other members of Group Management, the principles for remuneration as set out below and approved by the 2016 AGM currently apply. The Board of Directors proposes that the corresponding principles should be approved by the 2017 AGM for the period up to and including the 2018 AGM.

The principles set forth in this item shall apply to remuneration and other employment conditions of Group Management. The principles shall apply to contracts of employment entered into after the 2017 AGM and also to amendments made thereafter to contracts of employment which are in force. Remuneration to Group Management is determined by the Board of Directors based on proposals from the Remuneration Committee.

Principles

In general, remuneration to members of Group Management shall be based on the position held, individual performance and Group performance, and shall be on a competitive basis in the country of employment. The overall remuneration package for Group Management is comprised of fixed salary, variable salary in the form of short-term incentives based on annual performance targets, long-term incentives, pension and other benefits. In addition, there are conditions on notice of termination and severance pay.

Husqvarna shall aim to offer a competitive total remuneration level with a primary focus on "pay for performance".

Fixed salary

Fixed salary shall constitute the basis for total remuneration. The salary shall be related to the relevant market and shall reflect the degree of responsibility involved in the position. The salary levels shall be reviewed regularly (normally through an annual evaluation of salaries) in order to ensure continued competitiveness and in order to correctly reward performance.

Variable salary (Short-term Incentive, "STI")

Members of Group Management shall be entitled to STI in addition to the fixed salary. The STI shall be based on the financial result for the Group and/or for the business unit for which the member of Group Management is responsible. In addition, performance indicators can be used in order to focus on matters of special interest to the Company. Clearly defined objectives for "target" and "stretch" levels of performance shall be stated in the beginning of the year and reflect the plans approved by the Board of Directors. STI shall be dependent on the position and may amount to a maximum of 50% of the fixed salary on attainment of the "target" level and a

maximum of 100% of the fixed salary on attainment of "stretch" level, which also is the maximum STI. In the US, the STI component is normally higher and may amount to a maximum of 100% on attainment of the "target" level and a maximum of 150% of the fixed salary on attainment of the "stretch" level. The Board of Directors decides whether the maximum levels, 50/100/150%, shall be utilized or if a lower level shall be used.

Long-term incentive

The Board of Directors will annually evaluate if a long-term incentive program (e.g. share or share price based) should be proposed to the AGM.

Pensions and insurance

Pension and disability benefits shall be designed to reflect regulations and practice in the country of employment and the value of the benefits shall match normally accepted levels in the country. If possible, pension plans shall be defined contribution plans in accordance with the Pension and other Benefits Policy.

Other benefits

Other benefits can be provided in accordance with normal practice in the country where the member of Group Management is employed. However, these benefits shall not constitute a significant part of the total remuneration.

Notice of termination and severance pay

Members of Group Management shall be offered notice periods and levels of severance pay which are in line with accepted practice in the country where the member is employed. Members of Group Management shall be obliged not to compete with the Company during the notice period. Based on the circumstances in each case, a non-compete obligation with continued payment may be applied also after the end of the notice period. Such non-compete obligation shall not apply for more than 24 months from the end of the notice period.

Authority for the Board to deviate from the principles

Under special circumstances, the Board of Directors may deviate from these principles. In case of such deviation, the next AGM shall be informed of the reasons.

The main conditions for remuneration to Group Management in the current employment agreements are stated in note 4 in the Annual Report for 2016.

Estimated remuneration to the CEO and other members of Group Management for the business year 2017

The total remuneration to members of Group Management for 2017 is estimated to amount to between MSEK 62 and 129 depending on the degree to which the targets (entry-target-stretch) of the variable remuneration (variable salary and long term incentive cost) will be reached. The variable remuneration is thus estimated to amount to maximum MSEK 67.

Previously decided remuneration which has not become payable

Bonuses which have not become payable amount to a maximum of MSEK 8.0.

Resolution regarding the adoption of a long term incentive program (LTI 2017) (item 13)

Summary of the program

The Board of Directors proposes that the 2017 AGM resolves to adopt a performance based long term incentive program ("LTI 2017"). The program is proposed to be offered to a maximum of 80 senior managers within the Husqvarna Group. LTI 2017 offers participants the opportunity to receive two types of share awards: (1) "matching share awards" and (2) "performance share awards". Subject to the fulfilment of certain performance targets and conditions during a three year vesting period, matching share awards and performance share awards, to be granted in 2017, will vest and give right to B-shares in Husqvarna in accordance with the following.

The personal investment and matching share awards

In order to participate in the program, members of Group Management must buy B-shares in Husqvarna to a value corresponding to 10%, 15% applies for the CEO, of his/her annual fixed

salary in 2017. For other participants this personal investment in shares is optional but must be minimum 5% and maximum 10% of his/her annual fixed salary in 2017 if he/she wants to participate in this part of the program (matching share awards).

One matching share award will be granted for each Husqvarna B-share purchased within the framework of LTI 2017.

Those participants in LTI 2017 who are located outside of Sweden and whose salary is paid in a currency other than the Swedish krona will be covered by a certain "currency adjustment" to their personal investment in shares. This means that if the value of the Swedish krona (relative to such other currency) increases or decreases by more than 10% during the 3 year vesting period (i.e., the exchange rate at the date of grant of share awards compared with the exchange rate on the date the program is fully vested), then the number of matching shares to which such participant is entitled will be decreased or increased, respectively, to account for such relative change. This currency adjustment provision is expected to have a marginal effect on the total cost of the LTI 2017.

Performance share awards

In addition to the matching share awards (if applicable), each participant of the LTI 2017 will be granted a number of performance share awards based on such participant's annual target income in 2017 (fixed salary plus variable salary at a target level). Annual target income is used, rather than just fixed salary, to make the program more competitive in the US and to achieve a more differentiated remuneration structure.

The number of performance share awards that vest and give rights to receive B-shares further depend on the fulfilment of the Company's long term financial objectives specified as certain levels of increase of the Company's operating margin (weight 40%), net sales (weight 30%) and decrease of operating working capital in relation to net sales (weight 30%), as determined by the Board of Directors. These levels are "Entry", "Target" and "Stretch". Entry constitutes a minimum level which must be exceeded in order for the performance share awards to vest and give right to B-shares. The levels correspond to the following number of B-shares, with a linear progression between each level:

- Entry: Nil
- Target: 25% of annual target income / the share price¹
- Stretch: 50% of annual target income / the share price¹

Regarding the CEO, such levels are increased to 30% of annual target income at Target, and 60% for Stretch.

If the price for the B-shares would increase more than 100% during the three year vesting period, the number of performance share awards that vest and give right to B-shares will be reduced, whereby the maximum value to be received by each participant under LTI 2017 will be limited to the value of the maximum allocation at Stretch level at a share price increase of 100% during the vesting period. This limitation enables control and predictability over the maximum scope and cost of the program.

Additional terms and conditions of the share awards (both matching and performance share awards):

- Shares are allotted free of charge
- Are vested three years after grant (vesting period)
- Vesting of share awards and allotment of B-shares in Husqvarna requires that the participant is, with certain exceptions, still employed by the Husqvarna Group and has maintained the personal investment for three years
- Carry no right to compensation for dividends on underlying shares
- Are non-transferable

¹ Corresponding to the average closing price of Husqvarna's B-share at Nasdaq Stockholm during February 2017.

Design and administration

The Board of Directors, or a committee established by the Board, shall be responsible for the detailed design and administration of the incentive program, in accordance with the presented terms and guidelines. To this end, the Board of Directors shall be entitled to make adjustments to meet domestic or foreign regulations or market conditions. The Board of Directors may also make other adjustments if significant changes in the Husqvarna Group, or its environment, would result in the resolved terms and conditions for LTI 2017 no longer being appropriate to apply.

Allotment

In accordance with the above principles and assumptions, LTI 2017 will comprise the following number of B-shares for the different categories of participants: the CEO, approximately 143,000 B-shares, other members of Group Management, each approximately an average of 34,000 B-shares, corresponding to a total of approximately 408,000 B-shares, and other participants, each approximately an average of 16,100 B-shares, corresponding to a total of approximately 1,078,700 B-shares. The above stated numbers are calculated assuming all participants participate with maximum personal investment and the attainment of performance level Stretch as described above.

Scope and costs of the program

LTI 2017 is estimated to comprise a maximum of 1,700,000 B-shares, which corresponds to less than 0.3% of the total number of outstanding shares. The Company has approximately 576 million shares outstanding. The issued and outstanding options and rights to shares in accordance with the Company's previous incentive programs (LTI 2009, LTI 2014, LTI 2015 and LTI 2016) correspond to approximately 1.1% of the total number of outstanding shares. The Company's incentive programs' effect on important key figures is only marginal. For a description of the Company's other share related incentive programs, reference is made to the Annual Report for 2016, note 4, and the Company's website, www.husqvarnagroup.com.

LTI 2017 will be accounted for in accordance with IFRS 2 – Share-based Payment. IFRS 2 stipulates that the share awards should be expensed as personnel costs over the vesting period and will be reported directly against equity. Estimated social security charges will be recorded as a personnel expense in the income statement by current reservations. The cost for the program is estimated to amount to MSEK 80 before tax, if the performance level Target is reached, and is allocated over the years 2017-2020. The corresponding cost at performance level Stretch is estimated to MSEK 142. Financing costs and social security charges are included in the estimated amounts. The estimation of cost above is based on the assumptions that the share price is SEK 70 at the time of grant of the share awards, that each participant participates with a maximum personal investment, that the annual share price increase for the Company's B-shares is 5%, that social security charges amount to 25% and that the annual employee turnover is 5% among the participants of LTI 2017.

In order to limit the costs, including social security charges, for LTI 2017, the Board of Directors will adopt hedging measures, such as equity swap agreements with third parties which would then buy Husqvarna B-shares to be transferred to the participants of the program provided that the AGM resolves in accordance with Item 14 on the agenda. The hedging options are described below under Item 14 of the agenda. The intention is to not issue new shares as a result of the program.

The rationale for the proposal

The purpose of LTI 2017 is to influence and award long term performance, align shareholders' and managements' interest, attract and retain key employees and provide variable remuneration instead of fixed salary. In light of the above, the Board of Directors believes that adopting the incentive program LTI 2017 will have a positive effect on the development of the Husqvarna Group and consequently that it will be beneficial to both the shareholders and the Company.

Preparation

LTI 2017 is based on similar terms and conditions as the incentive program granted in 2016 (LTI 2016) and has in accordance with guidelines set out by the Remuneration Committee been prepared by Group Management in consultation with external advisors. The incentive program has been reviewed at meetings of the Board of Directors in 2016 and 2017.

Sale and equity swaps of Husqvarna B-shares (item 14)

a) Resolution on authorization to sell Husqvarna B-shares

The Board of Directors proposes that the 2017 AGM authorizes the Board of Directors to pass a resolution, on one or more occasions, for the period up until the next AGM, on selling B-shares in Husqvarna on Nasdaq Stockholm. The number of B-shares to be sold may not exceed the number of B-shares that the Company holds at the point in time of the Board's resolution. Sale of B-shares may only be in consideration of cash payment at a price within the share price interval registered at that time.

The purpose of the authorization is to be able to sell repurchased B-shares to hedge costs for social security charges and other costs in relation to resolved incentive programs and to continuously adapt the number of B-shares held in order to hedge the undertakings within the framework of the Company's incentive programs.

b) Resolution on authorization to enter into equity swap arrangements to cover obligations under LTI 2017

The Board of Directors proposes that the 2017 AGM authorizes the Board of Directors to pass a resolution, on one or more occasions, for the period up until the next AGM, to direct the Company to enter one or more equity swap agreements with a third party (e.g. a bank), on terms and conditions in accordance with market practice, to hedge the obligations of the Company under the LTI 2017 and any previously resolved incentive programs (the "Covered Programs"). Under such equity swap arrangements, in exchange for certain fees paid by the Company, the third party would be obligated to acquire (in its own name) such number of Husqvarna B-shares as are necessary to cover the Company's obligations under the Covered Programs and then, upon the instructions of the Company, to transfer such shares to the participants per the terms of the Covered Programs.

Resolution on authorization to resolve on issue of new shares (item 15)

The Board of Directors proposes that the 2017 AGM authorizes the Board to resolve to issue not more than 57,634,377 B-shares, which represents 10% of the total number of shares in the Company, against payment in kind, on one or several occasions, during the period until the next AGM.

The price for the new shares shall be based on the market price of the Company's B-shares. The purpose of the authorization is to facilitate acquisitions where the consideration will be paid with own shares.

Majority Requirements

For a valid resolution in accordance with the proposal pursuant to item 14 a) above, a shareholder majority of two thirds of the votes cast and two thirds of the shares represented at the AGM is required. For all other agenda items above (except elections), a shareholder majority of half of the votes cast at the AGM is required.

The Board of Directors' reasoned statement is set forth in **Appendix A**.

The Board of Directors' statement in accordance with Chapter 18 Section 4 and Chapter 19 Section 22 of the Swedish Companies Act (2005:551)

Background

The Board of Directors hereby presents the following statement in accordance with Chapter 18 Section 4 and Chapter 19 Section 22 of the Swedish Companies Act.

The reasons for the Board of Directors view that the proposed dividend is compliant with the provisions of Chapter 17 Section 3 Paragraphs 2 and 3 of the Swedish Companies Act are the following.

The assets and liabilities have been valued at actual value pursuant to Chapter 4 Section 14a of the Annual Reports Act (1995:1554). If the valuation had not been made at actual value, the equity would have been SEK 28,083t higher.

The nature, scope and risks of the business

The nature and scope of the Company's and the Group's business are set out in the Articles of Association and previous annual reports. The business carried out by the Company and the Group does not entail greater risks than risks that exist or is likely to exist in the industry or such risks which are generally associated with running business operations. As regards material events, reference is made to the Report by the Board of Directors in the Annual Report for 2016. The Company's and the Group's dependence on business cycles does not deviate from what is otherwise common in the industry.

The financial position of the Company and the Group

The financial position of the Company and the Group as of 31 December 2016 is described in the most recent Annual Report. The Annual Report also states the accounting principles that have been applied for valuation of assets, reserves and liabilities.

From the Board of Directors' dividend proposal, it follows that the Board of Directors proposes a dividend of SEK 1.95 per share, to be paid in two installments, firstly SEK 0.65 per share with Thursday, April 6, 2017 as the first record day, secondly SEK 1.30 per share with Friday, October 6, 2017 as the second record day. The total proposed dividend represents 4.8% of the Company's equity and 7.8% of the Group's equity.

The Annual Report shows that the Parent Company's equity/assets ratio amounts to 58.8% and the Group's equity/assets ratio is 44%. The Company's and the Group's equity/assets ratio does not differ from what is common within the industry. The proposed dividend does not jeopardize the investments which are deemed necessary for the business.

The proposed dividend does not affect the Company's and the Group's ability to fulfil its current and future payment obligations in a timely manner. The Company's and the Group's liquidity forecast comprises a readiness to handle variations in the ordinary payment obligations of the Company.

The Company's and the Group's financial position does not give rise to any other conclusion than that the Company will be able to continue its business and that the Company and the Group can be expected to fulfil its obligations on both a short and long-term basis.

The Board of Directors makes the assessment that the size of the Company's and the Group's equity is reasonable in relation to the scope of the Company's and the Group's business and the risks tied to the Company's business when taking into account the proposed dividend.

Conclusion

With reference to the above, and to what otherwise has been brought to the attention of the Board of Directors, the Board of Directors is of the opinion that the dividend is justifiable in light of the provisions of Chapter 17 Section 3 Paragraph 2 and 3 of the Swedish Companies Act.
